Seahorses 99%
Sharks 98%

National Target is 96%+

Message from Mr Poultney:

It has been great to see our doors reopen to all our children this week. The children have enjoyed being back in school with friends and staff and we are settling back into our routines.

This week was Science Week. All of our children have had a great time taking part in lots of scientific investigations and it has been a great way to welcome everyone back. Thanks must go to our Science lead, Mrs Fielder, who organised the week for all of our classes. We will be sharing some of our experiences so keep a look out.

Whilst there have been many positives this week, a reminder needs to be shared regarding the following:

- Attendance is compulsory except for authorised reasons.
- Children need to be in school for 8.50 prompt.
- Please ensure your family is following the latest rules regarding lockdown.

Everyone at the school wants the remainder of this year to pass without further disruption to the children's education. To do this will require everyone's cooperation and support. We trust you'll have a great weekend and look forward to seeing everybody next week.

**Happy
Mothers Day**

Starfish

What fun we have had in British Science Week this week! A great start to our first week back and we have had such fun exploring bubble making, biscuit dunking challenge, ice cream making and optical illusions! Class 1 have loved being back in together and seeing all our friends.

Turtles

It is so nice to have you all back in school. We have had so much fun this week during Science Week. We have made aeroplanes, tested bubbles to see if we can put our fingers in them, created optical illusions and taken part in a dunking biscuit experiment. We have also been busy crafting ready for Mother's Day.

Seahorses

Well done Seahorses for an incredible first week back in school. This week was Science Week and we have been busy! For one of our experiments, we were investigating changes in air pressure... it was quite messy! Our classroom has also been raided by an Anglo-Saxon! Luckily, they stuck around so we had a chance to interview them to find out some more information.

Sharks

This week in Class 4, we have absolutely loved Science Week! We have been exploring which biscuit makes the best dunker, whether the size of a paper aeroplane affects how aerodynamic it is, how many bubbles can be blown inside one another and reversible and irreversible changes – making our own ice cream! We have also tried 3D drawing, looking at the different perspectives of images and testing out optical illusions.

Ongoing Traffic Issues

Now that all children are back in school, when dropping off and picking up your children, please be mindful of where you park and also of the speed you are travelling in a residential area. No-one should be parking on the yellow lined zone outside the front of the school, except taxis, during our peak times.

Your cooperation with the above is greatly appreciated and will help ensure the safety of everyone.

Bikeability 2021

Bikeability will be going ahead this year, the week commencing **Monday 26th April**. All of our Year 5 will be taking their Level 2. This will be either every morning or every afternoon, Monday to Thursday. Year 4 children in Mrs McCorrie's class will be taking their Level 1 in the morning and Year 4 children in Miss Pearson's class will be participating Friday afternoon. Full details and permission forms will be issued the week commencing 22nd March.

On **Friday 19th March** it is **Red Nose Day**. All children are invited to come into school in fun, non-uniform, as whacky as you want to (!!!!) in exchange for a donation of **£1 or more**. All proceeds will go towards Comic Relief who help numerous organisations/charities both in the UK and Third World Countries.

Well Done Sofia!

A huge well done to Sofia who ran **50 miles** in February raising an impressive **£276** for Epilepsy Action. She chose to take part and raise money for this charity because she has Epilepsy herself.

Wrap Around Club

We would like to remind all parents that if your child is booked into breakfast club and wish to eat breakfast, they need to arrive by **8.00am at the latest**. After this time, staff need to prepare the children for the school day. Your cooperation with this is greatly appreciated.

Reminders

- This week several children have forgotten to bring in their PE kits, please can you ensure that all children keep their full PE kits in school, fully prepared.
- Long hair must be tied back.
- If your child has pierced ears then all earrings must be removed for PE lessons, if your child cannot remove them, themselves, then please do not wear them to school on PE days.
- Year 5 will be taking part in forest school on **Thursday afternoon**. Please send in suitable, old clothing, waterproof coats and wellies in a named bag. Long sleeved tops please!
