

Donaldson (Class 1)

In Donaldson this week, our focus has been on healthy eating. We have made healthy and unhealthy eating plates in topic. In DT, we read Handa's surprise and explored a range of different fruits, using adjectives to describe them. We then designed our own fruits salad/smoothie/kebab. It was fun using tools to cut and peel and then making our creations! We practiced being safe with the tools and good hygiene, such as washing our hands before and after preparing food and making sure the surfaces were clean. We really enjoyed the final week of our math unit and creating maps of our field and playground and our journey to school, and of course 'x' marks the spot treasure maps!

Dahl (Class 2)

This week in Dahl Class, we have enjoyed learning all about the British astronaut, Tim Peake, in our History lessons. We learned lots of facts about him and his space mission to the International Space Station. In PE, we continued to practice our throwing and aiming skills with bean bags and got very competitive playing 'tidy my room'. In Computing, we collected our own data and used this to make a digital pictogram. Well done everyone.

Suess (Class 3)

This week in Class 3, we have been using expanded noun phrases in our character descriptions. In maths, we have been looking at decimals and in our fluent in 15, we have been looking at capacity, time and money. A lot of time has been spent on play practise this week, we are so excited to show you how hard we have been working. You won't want to miss it!

Morpurgo (Class 4)

This week in Morpurgo Class, we have spent a lot of time practicing for our show ready for next Thursday. It is going to be spectacular and there are definitely some future stars amongst us! In Maths, Year 4 have been learning about different types of triangles and quadrilaterals, as well as partitioning decimals, whilst Year 5 have been rounding decimals to the nearest whole number and tenths. In Geography, we used our understanding of coordinates to help us find the longitude and latitude of different parts of the Alps.

Laugh 'n' Learn Preschool

In preschool, the children have loved making their own 'Teddy's bear picnic', role playing with the real plates and tea party equipment. In math preschool explored the unit 'counting; show me 5' joining in with rhymes and counting books to subitise, count 1:1 to 5, link numerals to quantities and learning a key principle in math (the Cardinal principle) that the final number counted when counting a group is the total there is. We are really enjoying learning our sounds and practising writing Letters, rhyming and initial sounds for our fruit salads!

OPAL

We enjoyed another week of water play in OPAL this week and loved the sunny weather. The water is being transported to the forest school and various dens around the field, using their own ideas, collecting resources they need and thinking critically and creatively in their play. . It is great to see how the children establish 'dens' in cozy corners under the trees and working in little groups. We have had a wonderful donation of teddies and a dolls house for the 'cozy corner' for those children that enjoy some quieter small world play.

Week commencing 30th June 2025

- Monday 7th July- Lego Club (last one)
- Tuesday 8th July - Piano lessons (last one)
 No Table Tennis—this has finished for the year
- Wednesday 9th July - Book & Biscuit—Reception
 Summer Games (last one)
- Thursday 10th July - Lifford Hall end of year performance—6pm
 Football club (last one)
 Wraparound finishes at 4pm today
